SECTION 2: User Expectations

The Internet and secure web access have altered the ways that confidential information may be accessed, communicated, and transferred by members of society. Those changes are influencing instruction and student learning. The School Board supports access by students, parents/guardians, teachers, and administrators to informational

resources that will improve participation in a child's education and improve communication between students, parents/guardians and the student's teachers.

The Centennial School District manages student information electronically and will make the student education records available for viewing only to authorized parents/guardians with a secure connection over the Internet. All parents/guardians will comply with the Internet use regulations and all technology regulations/procedures, as well as all other District Policies that may apply.

Electronic Access to Student Information Regulation

Centennial School District uses a secure Internet site to enable electronic access to student information; enhancing communication between our parents/guardians, students, teachers, principals and administrators.

A) Rights and Responsibilities

This access is a service offered to all current and active parents/guardians of Centennial School District students. Access to student information from the Internet is a privilege, not a right. Only after a family has enrolled their child(ren) in Centennial Schools will a parent/guardian be authorized to access a Family Access account. Once a student withdraws or graduates from Centennial School District their access will be inactivated. Parents/guardians and staff must understand and practice proper and ethical use.

B) Information Accuracy Responsibilities

Information accuracy is the joint responsibility between schools, parents/guardians, and students. Each school will make every attempt to ensure information is accurate and complete. If a parent/guardian or student discovers any inaccurate information, they will notify their school immediately.

C) Information Accessible

Centennial School District reserves the right to add, modify or delete functions viewed via the Internet site at any time without notice, including, but not limited to, the functions listed below.

School and District Notices	Family Demographic Information	School Calendar
Student Schedules	Attendance	Health Immunizations
Assignment Due Dates	Assessment Data	IPR/Report Cards

When the student portal is opened, students in grades 9 to 11 will be able to request the courses that they would like to take next year.

The District does not promise any particular level or method of access to the Internet site for viewing student information.
