

Centennial School District

Head Lice

Centennial School District is dedicated to our students' academic performance and physical well being in a healthy and safe environment. While head lice may cause anxiety, the district recognizes that head lice does not pose a health hazard, is not a sign of un-cleanliness, and is not responsible for the spread of any disease. The district is committed to working together, using established current research in the management of head lice in school.

The goals for providing a healthy and safe environment for students with head lice are to:

- Maximize academic performance
- Minimize absence due to unnecessary exclusion of students with head lice
- Educate staff, students and parents/guardians about head lice
- Utilize evidence-based practices for management for students with head lice
