

ADMINISTRATIVE REGULATION

CENTENNIAL SCHOOL DISTRICT

APPROVED: June 9, 2015

REVISED:

100-AR-0. COMPREHENSIVE PLANNING

Comprehensive planning is the process the Board uses to **evaluate the district's current programs and services**, envision the district's future and develop the necessary action plans to achieve the **goals** needed to achieve that future.

The district engages in the comprehensive planning process for district level and school level planning through the online Comprehensive Planning Tool provided by the Pennsylvania Department of Education:

http://www.portal.state.pa.us/portal/server.pt/community/comprehensive_planning/8949

The district will develop action plans to achieve the goals identified through the comprehensive planning process, which will be shared with the school community.

The Superintendent will **develop monitoring and** evaluation criteria to measure progress toward achieving the goals established for the **district and school-level** operations, programs and services **identified through the comprehensive planning process.**

District employees will be given specific directions for establishing daily priorities and identifying the data to be collected to assess the attainment of goals.

Administrative and instructional staff will be held accountable for working to achieve the goals **and to follow the action plans** directly related to their job responsibilities and for facilitating student achievement.

Human and financial resources will be allocated and included in the district's budget and in individual schools' budgets to provide the support needed to achieve the **goals identified through the comprehensive planning process.**

School-Level Plans

The district will develop and submit school-level plans as required by the Pennsylvania Department of Education for Title I identified schools or Title I school-wide programs through the comprehensive planning process.
